TRAIL CLOSURE and REROUTE

Reference: Map 9 Edition 7.0 <> Black Walnut Section
effective October 2015

Due to a new aggregate operation (gravel pit), the Grand Valley Trail, from km 9.3 to Cedar Creek Road as shown on Map 9 in Edition 7.0, is now **closed** (see series of X's on map image above). The trail has been rerouted along roads as shown on the map image. Please follow the reroute shown on the map above. That is, coming from the south, after the Dryden Tract, turn left on Alps Road for 1.2 km; turn right on Regional Road 47 (Dumfries Road) for 1.6 km; turn right on Cedar Creek Rd for 0.8 km and join the existing trail with a left turn near what **was** km 12.0 and is now km 12.9.

This reroute adds about 0.9 km to the main trail compared to the old route.
